

TECHNOLOGY PARK ZAGREB

Incubator Centre for Innovative Startup Companies

PROJECT DESCRIPTION

Technology incubators and parks assist technology-oriented entrepreneurs in the start-up and early development stage of their companies by providing a workspace, shared facilities and a range of business support services. Particularly important for the early development stage of companies is the availability of business financing sources, especially forms of equity and semi-equity capital that is crucial for further development. The intention of this Catalogue is to present technology incubators and parks as a source of investment projects (start-up companies) for business angels and venture capital funds.
